DemianThis volume offers a substantial portion of Hesse's copious writings and is representative of his fundamental themes and interests. Includes Siddhartha, Hesse's most celebrated work, which reflects his lifelong studies of Oriental myth and religion, Demian, an inner journey which had an unprecedented impact on the youth of its day, plus other writings which show Hesse as a master of self-irony and the short-story form.

The author, in defining the genre of "lyrical fiction," separates a type of fiction that can be legitimately viewed as "poetry" from other narrative types. The lyrical novelist uses fictional devices to find an aesthetic expression for experience, achieving an effect most frequently seen in dreams, picaresques, and allegories. Analyzing representative novels by Hermann Hesse, Andre Gide, and Virginia Woolf, Ralph Freedman focuses on the problem of self-consciousness. His findings are directly applicable to much twentieth-century fiction. Originally published in 1963. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. The Vegetarian

This volume is the first comprehensive synthesis of economic, political, and cultural theories of value. David Graeber reexamines a century of anthropological thought about value and exchange, in large measure to find a way out of ongoing quandaries in current social theory, which have become critical at the present moment of ideological collapse in the face of Neoliberalism. Rooted in an engaged, dynamic realism, Graeber argues that projects of cultural comparison are in a sense necessarily revolutionary projects: He attempts to synthesize the best insights of Karl Marx and Marcel Mauss, arguing that these figures represent two extreme, but ultimately complementary, possibilities in the shape such a project might take. Graeber breathes new life into the classic anthropological texts on exchange, value, and economy. He rethinks the cases of Iroquois wampum,
Pacific kula exchanges, and the Kwakiutl potlatch within the flow of world historical processes, and recasts value as a model of human meaning-making, which far exceeds rationalist/reductive economist paradigms.

Bread of Shame quirky, brilliant novel starring Chauncey Gardiner, an enigmatic man who rises from nowhere to become a media phenomenon—“a fabulous creature of our age” (Newsweek). One of the most beloved novels by the New York Times—bestselling and National Book Award-winning author of The Painted Bird and Pinball, There is the story of a mysterious man who finds himself at the center of Wall Street and Washington power—including his role as a policy adviser to the president—despite the fact that no one is quite sure where he comes from, or what he is actually talking about. Nevertheless, Chauncey “Chance” Gardiner is celebrated by the media, and hailed as a visionary, in this satirical masterpiece that became an award-winning film starring Peter Sellers. As wise and timely as ever, Being There is “a tantalizing knuckleball of a book delivered with perfectly timed satirical hops and metaphysical flutters” (Time).

Return to a Different Dimension First published in 1919, it is a brilliant journey of the psyche written by one of Germany's most influential writers and thinkers—Herman Hesse. A young man awakens to selfhood and to a world of possibilities beyond the conventions of his upbringing. Emil Sinclair is a quiet boy drawn into a forbidden yet seductive realm of petty crime and defiance. His guide is his precocious, mysterious classmate Max Demian, who wakes one morning to find himself transformed into a monstrous insect. This hugely influential work inspired George Orwell, Albert Camus, Jorge Luis Borges, and Ray Bradbury, while continuing to unsettle millions of readers. In her new translation of Kafka's masterpiece, Susan Bernofsky strives to capture both the humor and the humanity in this macabre tale, underscoring the ways in which Gregor Samsa's grotesque metamorphosis is just the physical manifestation of his longstanding spiritual impoverishment.

Demian by Hermann Hesse The recipient of numerous literary prizes, including the National Book Award, the Kafka Award, and the Pushcart Prize, Ursula K. Le Guin is renowned for her lyrical writing, rich characters, and diverse worlds. The Wind's Twelve Quarters collects seventeen powerful stories, each with an introduction by the author, ranging from fantasy to intriguing scientific concepts, from medieval settings to the future. Including an insightful foreword by Le Guin, describing her experience, her inspirations, and her approach to writing, this stunning collection explores human values, relationships, and survival, and showcases the myriad talents of one of the most provocative writers of our time.

An Analysis of Dualism of the Personality in Hermann Hesse's Demian and Der Steppenwolf Jack Pierce, a down and out writer, has retreated from society to the sanctuary of the mountains above Leadville, Colorado. To his astonishment, an old lover, Miranda Talbot, a poet and faith healer from Texas, arrives at his house shortly after the death of his live-in girlfriend and proceeds to inspire him to write a biography about the recently deceased Yale Nobel Prize recipient Theodore Hudson. Reluctant at first, he eventually succumbs to her charms and sets off for New Haven, Connecticut on a wild ride with the esoteric Miranda that could be the turning point in his miserable life. There he and Miranda learn about Hudson's past and must wrestle with the moral dilemma this information presents. Bread of Shame is about the beauty of truth when the larger picture is finally glimpsed and made to benefit seeker and savior and all those in between. The novel speaks to what it is to be an artist and a human being in a world where perception is obscured by human need, and knowledge is ambiguous and conflicted. Finally, it is about what it takes to live and love and write. "Miranda's and Jack's determination to discover the truth about themselves and others adds layers of interest to a well-wrought mystery. Engaging and moving the language is poetic and deliberate." Kirkus Reviews

Map of the Soul - Persona From award-winning author Demian Vitanza comes a groundbreaking novel--his first to be translated into English--about one man's alienation, radicalization, and disillusionment on the violent front lines in Syria. Tariq Khan is a Pakistani born and raised in Norway. An outsider in his own country--adrift between two worlds divided by class, race, and culture--he's always been searching for home. Alongside a flock of other streetwise young men, each looking for direction and each easily susceptible, Tariq finds his cause in the Muslim revival. Idealistic, driven by faith, and empowered with purpose, he's drawn to radical Islam--his last resort for achieving a sense of belonging, for embracing and being embraced. It's only when he enlists in the war against
Assad that Tariq's eyes are truly opened. Dispirited with the violence, faced with the consequences of his choices, and increasingly distanced by the brutalities of jihad, Tariq contends with spiritual struggles that are his alone. So are the stories he will tell to make sense of his life. In this daring and unprecedented work of literary fiction, Demian Vitanza explores the power of memory, the lure of rebellion, the search for meaning amid chaos—and the toll that such a journey can take before finally finding one's way home.

Demian: a Vision of Individuation in Emil Sinclair A penetrating study of ordinary people resisting the Nazi occupation—and, true to its title, a dark comedy of wartime manners—Comedy in a Minor Key tells the story of Wim and Marie, a Dutch couple who first hide a Jew they know as Nico, then must dispose of his body when he dies of pneumonia. This novel, first published in 1947 and now translated into English for the first time, shows Hans Kelsen at his best: deeply ironic, penetrating, sympathetic, and brilliantly modern, an heir to Joseph Roth and Franz Kafka. In 2008, when Kelsen received Germany's prestigious Welt Littérature Prize, the citation praised his work for exploring "the destructive impulse at work in the twentieth century, down to its deepest psychological and spiritual ramifications." Published to celebrate Kelsen's hundredth birthday, Comedy in a Minor Key—and The Death of the Adversary, reissued in paperback—will introduce American readers to a forgotten classic author, a witness to World War II and a sophisticated storyteller whose books remain as fresh as when they first came to light.

Narcissus and Goldmund Narcissus and Goldmund is the story of a passionate yet uneasy friendship between two men of opposite character. Narcissus, an ascetic instructor at a cloister school, has devoted himself solely to scholarly and spiritual pursuits. One of his students is the sensual, restless Goldmund, who is immediately drawn to his teacher's fierce intellect and sense of discipline. When Narcissus persuades the young student that he is not meant for a life of self-denial, Goldmund sets off in pursuit of aesthetic and physical pleasures, a path that leads him to a final, unexpected reunion with Narcissus.

Demian: The Story of Emil Sinclair's Youth The Astrological dynamics of the Universe looks at how the astrological cycles of planets in signs have has a major impact on the Western World since the period of 1970 to 2020. Relating how particular planetary cycles in the last forty years have changed our society can give us an indicator of what to expect and how we will respond over the next eight years. The book includes the natal charts of the UK and the USA with an explanation and predictions. There is also a chapter on how each of the twelve zodiac signs can survive and get the best from the next eight years. The book also looks at aspects, houses and historical and cultural reference points from the past to the present. The book is designed for astrologers and anyone who has a little astrological knowledge can pick up this book. The ethos of the book is to show how astrology works as a collective unconsciousness tool that has a direct bearing on humanity as a whole. The idea for the book came from my regular astrology column in the 'Watkins Review – Mind Body Spirit' magazine which has developed quite a cult following with positive feedback.

Toward An Anthropological Theory of Value The award-winning New York Times bestseller about the extraordinary things that can happen when we harness the power of both the brain and the heart Growing up in the high desert of California, Jim Doty was poor, with an alcoholic father and a mother chronically depressed and paralyzed by a stroke. Today he is the director of the Center for Compassion and Altruism Research and Education (CCARE) at Stanford University, of which the Dalai Lama is a founding benefactor. But back then his life was at a dead end until at twelve he wandered into a magic shop looking for a plastic thumb. Instead he met Ruth, a woman who taught him a series of exercises to ease his own suffering and manifest his greatest desires. Her final mandate was that he keep his heart open and teach these techniques to others. She gave him his first glimpse of the unique relationship between the brain and the heart. Doty would go on to put Ruth’s practices to work with extraordinary results—power and wealth that he could only imagine as a twelve-year-old, riding his orange Sting-Ray bike. But he neglects Ruth’s most important lesson, to keep his heart open, with disastrous results—until he has the opportunity to make a spectacular charitable contribution that will virtually ruin him. Part memoir, part science, part inspiration, and part practical instruction, Into the Magic Shop shows us how we can fundamentally change our lives by first changing our brains and our hearts.

Discover the Gift He promised to "drain the swamp." Look at what he really did. He filled the swamp with creatures like himself, greedy and unfeeling; focused solely on making themselves rich. Look at the ruler who wants to silence the press, demands loyalty oaths, destroys the nation's safety standards, steals public lands, maintains never-ending wars, and nuclear options. He locks up infants and children, after separating them from parents. He cares so little about the kids, that he doesn't know where they are located, or that some have died in his cages.

He wants you so see a military parade in his honor, just like the ones that Putin gets. Hear how he brags about how wonderful he is. But in the end, he's an emperor who lives, and thrives, in the swamp. My "Swamp Emperor" book offers two parody graphic stories -- mostly in rhyme -- about the misadventures of a tyrant, liar, and greedy crook. The second story is presented in glorious, red / cyan anaglyph stereoscopic vision. Because the book distributor is unable to include 3-D viewing glasses, I will send you, for free, a really cheap, flat cardboard, cellophane-lens 3-D viewer. Just e-mail me your street address. The other half of the book contains data on some of this fascist's destructive actions, plus an extensive list of action organizations which support human rights and planetary safety. For your consideration, Swamp Emperor, would-be mob ruler of the planet "Swamp Emperor"

Note from the Author The "Swamp Emperor" book is not for children. Most youngsters aren't interested in a non-costumed character, nor in all the political text. It would bore them. However, this should be read by teenagers (and older). They would have an interest in the politics that directly affects their lives. Such as, this administration's inaction regarding the violence and insane number of guns in America, as well as in the loss of access to schools, housing, jobs, medical care, etc. At its heart, the Trump administration, and many in the Republican party, are devoted to expanding the U.S. CIA, FBI and Pentagon secret budgets, and creating a permanent slave class, based on giving all power (and welfare) to the corporation owners, with nothing for the workers, children and dreamers of America. I don't expect my Swampy book to change any Trump-lover's mind. My hope is to energize those interested in progressive change, and to support those taking actions to fight for social improvements in America and around the world. ++++++++++++++++++++++

The Metamorphosis: A New Translation by Susan Bernofsky

The Lyrical Novel Winner of the 2016 Man Booker International Prize NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times Book Review • Publisher's Weekly • Buzzfeed • Entertainment Weekly • Time • Wall Street Journal • Bustle • Elle • The Economist • Slate • The Huffington Post • The St. Louis Dispatch • Electric Literature Featured in the New York Times selection of "15 remarkable books by women that are shaping the way we read and write fiction in the 21st century" A beautiful, unsettling novel about rebellion and taboo, violence and eroticism, and the twisting metamorphosis of a soul Before the nightmares began, Yeong-hye and her husband lived an ordinary, controlled life. But the dreams— invasive images of blood and brutality— torture her, driving Yeong-hye to purge her mind and renounce eating meat altogether. It's a small act of independence, but it interrupts her marriage and sets into motion an increasingly grotesque chain of events at home. As her husband, her brother-in-law and sister each fight to reassert their control, Yeong-hye obsessively defends the choice that's become sacred to her. Soon their attempts turn desperate, subjecting first her mind, and then her body, to ever more intrusive and perverse violations, sending Yeong-hye spiraling into a dangerous, bizarre estrangement, not only from those closest to her, but also from herself. Celebrated by critics around the world, The Vegetarian is a darkly allegorical, Kafka-esque tale of power, obsession, and one woman's struggle to break free from the violence both without and within her.

Transitional Justice in Law, History and Anthropology Transitional justice seeks to establish a break between the violent past and a peaceful, democratic future, and is based on compelling frameworks of resolution, rupture and transition. Bringing together contributions from the disciplines of law, history and anthropology, this comprehensive volume challenges these frameworks, opening up critical conversations around the concepts of...
justice and injustice; history and record; and healing, transition and resolution. The authors explore how these concepts operate across time and space, as well as disciplinary boundaries. They examine how transitional justice mechanisms are utilised to resolve complex legacies of violence in ways that are often narrow, partial and incomplete, and reinforce existing relations of power. They also destabilise the sharp distinction between ‘before’ and ‘after’ war or conflict that narratives of transition and resolution assume and reproduce. As transitional justice continues to be celebrated and promoted around the globe, this book provides a much-needed reflection on its role and promises. It not only critiques transitional justice frameworks but offers new ways of thinking about questions of violence, conflict, justice and injustice. It was originally published as a special issue of the Australian Feminist Law Journal.

Cyclopedia of Literary Characters: Demian-Jonah's gourd vine

Swamp Emperor Shows that pragmatic historicism is a significant intellectual tradition in the history of American religious and philosophical thought. Among the greatest challenges facing religious thinkers today is that created by historicism, the notion that human beings and their myriad understandings of reality are utterly historical, conditioned by contingent circumstances and tied to particular contexts. In this book, Demian Wheeler confronts the historicist challenge by delineating and defending a particular trajectory of historicist thought known as pragmatic historicism. Rooted in the German Enlightenment and fully developed within the early Chicago school of theology, pragmatic historicism is a predominantly American tradition that was philosophically nurtured by classical pragmatism and its intellectual siblings, naturalism and radical empiricism. Religion within the Limits of History Alone not only undertakes a detailed genealogy of this pragmatic historicist lineage but also sets forth a constructive program for contemporary theology by charting a path for its future development. Wheeler shows that pragmatic historicism is an underdeveloped resource for contemporary theology since it offers a model for normative religious thought that is theologically compelling yet wholly nonsupernaturalistic, deeply pluralistic, unflinchingly liberal, and radically historicist. Demian Wheeler is Associate Professor of Philosophical Theology and Religious Studies and Director of Advanced Studies at United Theological Seminary of the Twin Cities. He is the coeditor (with David E. Conner) of Conceiving an Alternative: Philosophical Resources for an Ecological Civilization.

The Hero's Quest for the Self There is a lot of interest in today's culture about the idea of Persona and the
psychological mapping of one's inner world. In fact, the interest is so strong that the superstar Korean Pop band,
BTS, has taken Dr. Murray Stein's concepts and woven them into the title and lyrics of their latest album, Map of
the Soul: Persona. What is our persona and how does it affect our life's journey? What masks do we wear as we
engage those around us? Our persona is ultimately how we relate to the world. Combined with our ego, shadow,
amina and other intra-psychic elements it creates an internal map of the soul. T.S. Eliot, one of the most famous
English poets of the 20th Century, wrote that every cat has three names: the name that everybody knows, the
name that only the cat's intimate friends and family know, and the name that only the cat knows. As humans, we
also have three names: the name that everybody knows, which is the public persona; the name of that only your
close friends and family know, which is your private persona; and the name that only you know, which refers to
your deepest self. Many people know the first name, and some people know the second. Do you know your secret
name, your individual, singular, unique name? This is a name that was given to you before you were named by
your family and by your society. This name is the one that you should never lose or forget. Do you know it?

Into the Magic Shop Publicado em 1919, com o pseudônimo Emil Sinclair, Demian conta-nos a história de uma
difficil caminhada para a maturidade, que culmina nos dias sombrios da Primeira Guerra Mundial. Os seus
protagonistas – o enigmático Max Demian e o narrador, o jovem Emil Sinclair – erguem, ao longo das páginas
deste romance, um inesquecível grito de revolta contra os processos de uniformização então predominantes e
contra a barbarie massificada que viria a constituir a marca mais característica do século XX. Demian é um
brilhante retrato psicológico de alguém que rompe com as convenções sociais em busca da realização espiritual
e do autoconhecimento. Influenciado pelas ideias de Carl Jung, fundador da psicologia analítica, mas também
pela sabedoria oriental, Hesse interroga-se acerca da natureza humana, com as suas contradições e dualidades,
e aborda muitos dos seus temas característicos, alguns dos quais haveria de retomar em Siddhartha. Romance
cuja influência Thomas Mann comparou à de Werther de Goethe, Demian continua a marcar gerações de
leitores, pois, como todas as obras-primas, a mensagem que contém é de perene interesse. O mais admirável
éxito de Hesse e um dos mais importantes livros do século XX.
